ARTICLES
C. D. Smith Bend losses in drop inlet spillways 1
J. A. McCorquodale, E. H. Imam, J. K. Bewtra, Y. S. Hamdy, and J. K. Kinkead Transport of pollutants in natural streams 9
Donald J. Fraser Evaluation of effective length factors in braced frames 18
Fernand Ellyin Nonlinear response and stability of structures 27
Qizhou Shi and Sam Yagar Case studies measuring the benefits of the HSS hump sequencing model 36
Tim K. Kieffer and Ken A. Selby Concrete placing productivity 48
P. Baktash, C. Marsh, and A. Pall Seismic tests on a model shear wall with friction joints 52
Murty K. S. Madugula, T. S. Prabhu, and Murray C. Temple Ultimate strength of concentrically loaded cold-formed angles 60
A. Picard et D. Beaulieu Calcul de la résistance pondérée en flexion des poutres à section mixte 69
J. W. Kamphuis and J. R. Moir Ice breakup and jamming observations along the Mackenzie River 78
Jeffrey A. Packer Developments in the design of welded HSS truss joints with RHS chords 92
Zenon A. Zielinski and Ioanis Spiropoulos An experimental study on the uniaxial and biaxial flexural tensile strength of concrete 104
Pu Wang and R. Kahawita A two-dimensional numerical model of estuarine circulation using cubic splines 116
T. A. Davison and P. C. Birkemoe Column behaviour of cold-formed hollow structural steel shapes 125
Michael C. Quick Sediment transport by waves and currents 142
A. Nicolopoulos Current design procedures for steel-lined pressure tunnels 150

DISCUSSIONS
James J. Sharp Thermocline drawdown above cooling water intakes: Discussion 162
Emad E. M. Elsayed Thermocline drawdown above cooling water intakes: Reply 162
Reidar Bjorhovde Headed shear stud connectors in a stub-girder floor system: a preliminary study: Discussion 165
T. Rezansoff and M. U. Hosain Headed shear stud connectors in a stub-girder floor system: a preliminary study: Reply 167
V. J. Galay Some hydrotechnical problems related to the construction of a causeway in the estuary of the Petitcodiac River, New Brunswick: Discussion 169
Bertrand Côté Modélisation de fermeture des cours d'eau: Discussion 170
Karol Rohan Modélisation de fermeture des cours d'eau: Réponse 171

BOOK REVIEWS / CRITIQUES DE LIVRES
Institution of Civil Engineers Fatigue in offshore structural steels: Reviewed by T. H. Topper 173
Gary C. Hart Uncertainty analysis, loads, and safety in structural engineering: Reviewed by Carl Turkstra 173
Institution of Civil Engineers Transport and energy: Reviewed by W. F. Johnson 174
Roland W. Jeppson Analysis of flow in pipe networks: Reviewed by G. F. Round 175
Gouri Dhatt et Gilbert Touzot Une présentation de la méthode des éléments finis: Critique par René Tinawi 176
M. Levitt Precast concretes: materials, manufacture, properties and usage: Reviewed by V. M. Malhotra 178
ASCE, CSCE, and ICE Planning and the civil engineer: Reviewed by M. C. Ircha 179
Task Force on Revenue Shortfall Revenue shortfall: the public works challenge of the 1980's: Reviewed by M. C. Ircha 180

P. Choate and S. Walter America in ruins: beyond the public works porkbarrel: Reviewed by M. C. Ircha 180
Institution of Civil Engineers Dams and earthquake: Reviewed by L. Wolofsky 182

JUNE / JUIN

ARTICLES
G. Pernica Dynamic live loads at a rock concert 185
C. J. Montgomery, G. L. Kulak, and G. Schwartsburd Deflections of a composite floor system 192
Peter R. Waylen and Ming-ko Woo Stochastic analysis of high flows in some Central British Columbia rivers 205
Brian A. Monaghan Wastewater treatment plant, process control experiences using a minicomputer 214
J. W. Kamphuis On the erosion of consolidated clay material by a fluid containing sand 223
Nicholas Kouwen and Mohammad F. N. Mohsen Increased sump capacity—A model study 232
Merv D. Palmer Fecal coliform loadings from birds on bridges 241
Robert M. Korol, Farooque A. Mirza, and Ernie T.-C. Chiu An experimental investigation of double chord HSS trusses 248
Robert M. Korol, Farooque A. Mirza, and Ernie T.-C. Chiu Predicting the behaviour of HSS double chord trusses—a comparison with test results 261
J. L. Gordon Powerhouse concrete quantity estimates 271
Hisham Hafez and George Abdel-Sayed Finite element analysis of soil–steel structures 287
P. Chung Wing and P. J. Harris Eccentrically loaded bolted beam connections 295

NOTES
N. S. Bulmanis, H. A. Latos, and F. J. Keenan Improving the bearing strength of supports of light wood trusses 306
Kenneth L. Chua A simplified approach to calculating storage pond volumes 312

DISCUSSIONS
Ricardo O. Foschi Duration of load effects in lumber. Part I: A fracture mechanics approach. Part II: Experimental data. Part III: Code considerations: Discussion 317
K. Johns and B. Madsen Duration of load effects in lumber. Part I: A fracture mechanics approach. Part II: Experimental data. Part III: Code considerations: Reply 320
C. R. Neill Analysis of freeze-up ice jams on the Peace River near Taylor, British Columbia: Discussion 323
